### **President's Message**

Hello fellow members,  
We are already up to our final General Meeting for 2025. After a couple of false starts I am really looking forward to Christopher Reynolds' speaker presentation at our November meeting. I have read his book and found it very interesting.  
We need to have executive positions for next years Committee finalised before our February meeting and we still do not have a nominee for Secretary. So please keep thinking about it . We may need other volunteers for other positions next year but without executive positions filled our club cannot continue to function.  
I look forward to seeing you all at our November meeting..  
President Jack

### **Our October Speaker:**

Chris Holland gave a thoroughly enjoyable talk on his lifelong passion of photography. He highlighted many of his favourite photos that he has taken over the last 50 years and explained that to get the best photographs, as well as having good equipment, you need the lighting and composition to be correct. You also need to be extremely patient just waiting for the correct second to take your photo. In taking a portrait photo, he may take up to 50 shots and cull it back to the one he considers the best. All our members gained great insight and knowledge to enable them to improve their own future photos.

## Induction of New Members

### **Tuesday 7<sup>th</sup> October - Full Moon Rising Marcoola Surf Club**

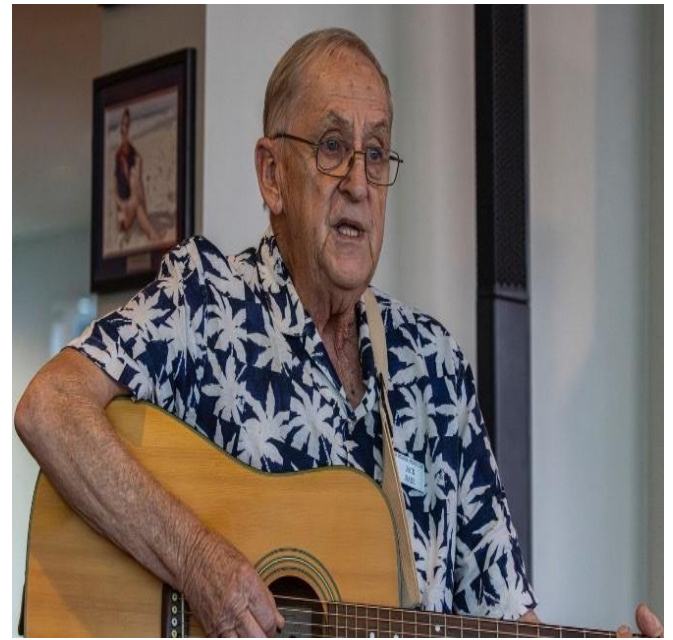

We had beautiful, clear conditions for the Moon Rise outing where 19 members and 1 guest enjoyed the spectacle of quite a red moon rising above the horizon at Marcoola. Prior to gathering on the deck or the sand, we were enlightened by Jack's rendition of The Legend of Maroochy, a song he wrote in 1970.

It tells an amazing story as he heard it many years ago and it was a joy to hear it in 2025. Thanks Jack!

I also put people 'to the test' with a quiz associated with the moon. It's incredible that many of those attending could recall vividly where they were on 20 July 1969 when the moon landing was televised.

I was drawn to some lights a little south of Marcoola and thought the smudge of pink I saw was a cloud... but it was actually the moon!

The camaraderie of those attending was delightful and we shared stories over our delicious meals at Marcoola Surf Club, another reason to love Probus.

**Thursday 16<sup>th</sup> October- TAFE  
Degustation Lunch**

The very talented overseas students from TAFE provide two degustation lunches per year which are always delicious.

We were very well looked after by the students and we enjoyed immensely the five different courses which were delectable and so unusual. Roll on next year.

**Friday 17<sup>th</sup> October - Golf Report**

We had 9 members plus Aidan's brother play our Stableford event on a beautiful spring morning. The course is improving and the scores were better than ever with the majority of our members scoring in the 30's off the stick and lots of par holes. Errol won the day with 31 points. Ron was second with 30 points with Ian Nunn, Warren and Aidan tying for 3<sup>rd</sup> a further 3 points behind.

Warren and Joe putting for pars.

Of course they got them including many more in their rounds.

**Event Coordinator: Ken Evans**

## Possible future Probus golfing trip!

There is an opportunity for our golfing group and any other members who are keen to experience an amazing unforgettable golf trip! Only a 9-hole course playing 3 holes in 3 different states- NSW, SA, and QLD.

The game begins and ends in Cameron Corner, where the three states meet. Logistics are being looked at and they might present a challenge.

Accommodation (1 star) and transport are available- see attached photos. Meals are available at the one location- only place in town.

You would definitely need to bring your sand wedge and possibly fit wide tyres to your golf buggy!

Sunscreen and face covering fly nets would be advantageous.

Interested? See Errol.

## **Members Travel Experiences**

In September Jeff & I visited the 5 Stans in Central Asia - Turkmenistan, Uzbekistan, Tajikistan, Kyrgyzstan and Kazakhstan. Each of these countries received their independence from Russia in 1991 and these countries are rich in Oil, Gas and Cotton being their main exports.

We arrived in Ashgabat the capital of Turkmenistan and discovered a very modern city with beautiful white marble buildings and many monuments. Only white or silver cars are allowed into the city and this is policed on entering the city!

The next day we travelled in 4WD Vehicle all day over the most horrendous roads with cowboy drivers to view the Crater which has been burning for 50 years through gas escaping. A night in a Yurt followed. It had been 38 degrees day but disappointedly we discovered that there were no showers as their water supply had not arrived!!

On to Uzbekistan - a country rich in Mosques, Mausoleums, Madrasahs, Marionettes and Monuments. It was also a major trading route on the Great Silk Road and the ancient cities of Bukhara and Samarkand flourished. Samarkand has a nightly Laser and Light show in Registan Square telling the history of the Silk Road - unfortunately it was not in English so didn't understand much! The name of our hotel was - "The Silk Road Hotel" and it was decorated accordingly. Genghis Khan destroyed Samarkand and for 150 years it lay in ruins. In the 14th century the great conqueror and hero Amir Timur chose Samarkand to be the capital of his huge Timurid Empire.

Next Tajikistan - a country that is 93% mountains. We had a long bus trip winding up around the mountains to discover the "Seven Lakes". Dushanbe is the capital and we remember it well for the beautiful hotel we stayed in!

We flew from Tashkent to Bishkek in Kyrgyzstan - another mountainous country.

We are now into beautiful scenery, the Tian Shan Mountain peaks, alpine meadows and scenic rivers - beautiful. A masterclass in making traditional felt rugs was enjoyed by us all. A day trip to Tash-Rabat, a 15th Century stone caravanserai, or roadside Inn, located on the Great Silk Road was probably a highlight for me.

Our last country was Kazakhstan - a very modern city. We hiked the Charyn Canyon which is said to resemble the Grand Canyon in USA.

Each of these countries are 90% Muslim. Crossing the borders of each country was a marathon effort with passports and bags checked many times and then a walk across No Mans Land to the next country and then the Passport and bag check again. Guards with guns were much in evidence. It probably took at least an hour to cross each border.

A great history lesson and learning experience.

**When parents leave this world, something deep inside us changes forever.**

**We are no longer just children in their eyes.**

**We can no longer run into their arms, feel their warm hugs, or hear the gentle words that could make any bad day better.**

**Life feels heavier because the shield of their love is gone.**

**It does not matter how old we are, losing them makes us orphans in a way that nothing else can explain.**

**Even when we have our own families, their faces and voices remain carved into our hearts for as long as we live.**

**Inside every adult, there is still a small child who longs for the safety of their parents' love.**

**That child wants to be held, to be told everything will be alright.**

**And while they were here, we always knew we could return to that love whenever we needed it.**

**But when they are gone, that door is closed forever. And we are left holding the memories, wishing for one more hug, one more kiss, one more moment.**

**A wife leaned into her husband and purred,  
"Have you ever seen twenty dollars all crumpled up?"  
The husband shook his head, "Nope."  
She slowly unbuttoned her blouse, reached into her  
lace push-up bra, and pulled out a crumpled \$20 bill.  
He grinned. "Nice trick."  
Then she teased, "Ever seen fifty dollars all crumpled  
up?"  
He gulped, "No..."  
Off comes the skirt. Out comes a crumpled \$50 from  
her lace panties.  
Now he's sweating in anticipation of what's coming  
next.  
Then she leans in and whispers,  
"Ever seen \$50,000 all crumpled up?"  
He practically shouts, "NO - BUT I'D LOVE TO!"  
She pauses, gives him an apologetic look, and says,  
"...Go look at our Mercedes in the garage."**

---

I asked my blonde neighbor how she lost her husband Johnny. She told me her sad story.

"Well, he needed a blood transfusion, but his blood type was not on his record, so the doctors asked me if I knew what it was, as they urgently needed to know, in order to save my Johnny's life.

Tragically, I've never known his blood type, so I only had time to sit and say goodbye.

I'll never forget how supportive my Johnny was. Even as he was fading away, he kept on whispering to me, "Be positive, be positive!"

That was my Johnny! Always thinking of others."
